A sound trademark is a trademark where sound is used to perform the trademark function of uniquely identifying the commercial origin of products or services.. In recent times, sounds have been increasingly used as trademarks in the marketplace. However, it has traditionally been difficult to protect sounds as trademarks through registration, as a sound was not considered to be a 'trademark'.

Touring Models - Hogtunes amp review - I'm always looking for ways to improve the sound of the stock stereo without over-spending and have been watching the various threads that come and gone over the past year. Hogtunes speakers are a very popular low-cost upgrade for fairing bikes and I took the bait about a year...
