### **Managerial Accounting: Tools for Business Decision Making**

Chapter 17 is an introduction to managerial accounting. Managerial accounting relates to reporting internal to an organization, and is far less structured than the rules-based system applicable to financial (external) reporting.

### **Chapter 17: Introduction to Managerial Accounting**

The distinction between traditional and innovative accounting practices is illustrated with the visual timeline (see sidebar) of managerial costing approaches presented at the Institute of Management Accountants 2011 Annual Conference.. Traditional standard costing (TSC), used in cost accounting, dates back to the 1920s and is a central method in management accounting practiced today because ...

### **Management accounting - Wikipedia**

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
