In philosophy, systems theory, science, and art, emergence is the condition of an entity having properties its parts do not have, due to interactions among the parts.. Emergence plays a central role in theories of integrative levels and of complex systems.For instance, the phenomenon of life as studied in biology is an emergent property of chemistry, and psychological phenomena emerge from the ...

Emergence - Wikipedia

Integrative negotiation is also called interest-based, merit-based, or principled negotiation. It is a set of techniques that attempts to improve the quality and likelihood of negotiated agreement by taking advantage of the fact that different parties often value various outcomes differently.
