Another factor to consider when choosing a board is the type of project you are looking to do. For example, if you want to create a wearable electronic project, you might want to consider the LilyPad board from Sparkfun. The LilyPad is designed to be easily sewn into e-textiles and wearable projects.

Arduino Uno For Beginners - Projects, Programming and

Learn how to program the Arduino to change the blinking rate of an LED, change the pins, and control multiple LEDs at once.

Getting Started with the Arduino – Controlling the LED

Building your own electronic devices is fascinating fun and this book helps you enter the world of autonomous but connected devices. After an introduction to the Arduino board, you'll end up learning some skills to surprise yourself.
