There's a 90% chance that the current El Niño will continue through the summer, and forecasters estimate the chance that it will continue through the end of 2015 at greater than 80%. This is a pretty confident forecast. What are the forecasters looking at that gives them such confidence? Warm and getting warmer. Sea surface temperatures in the equatorial Pacific remained substantially above ...

Financing climate change is an important part of the World Bank Group's business. Our focus has resulted in significant financing flowing to support low-emissions and resilient development. For example, mitigation support for the world's poorest countries through the Bank's IDA reached \$2.3 billion during fiscal year 2013, while the IFC's mitigation financing increased 50 percent to \$2.5 billion.
